- Certificate of completion
- \$230.00 per person

Course Content:

The purpose of this workshop is to equip participants with specific skills and strategies to make the teenage and early adult years a success. Autistic young people use specific coping strategies to cope with having autism. The coping styles and the implications of these for understanding, teaching, parenting and managing autistic young people are described.

The presenters will focus on a range of areas known to be important to autistic young people including the transition into high school, the learning profile and specific strategies to encourage academic and social success, the management of anxiety, stress, anger and depression, friendships, relationships and sexuality, what to do about bullying, and transition into a career.

Who will benefit:

All education professionals including Teachers, Teacher Aides, SENCOs, Learning Support Co-ordinators, School Principals, Counsellors, RTLBs, and administrative staff and other education and health service providers.

Dr Tony Attwood With a career spanning five decades, Professor Tony Attwood is considered to be one of the world's foremost experts on Autism Spectrum Disorder. He has an Honour's degree in Psychology from the University of Hull, a Master's degree in Clinical Psychology from the University of Surrey and a PhD from the University of London. He is currently adjunct Professor at Griffith University in Queensland.

Dr Michelle Garnett is a clinical psychologist who has specialised in autism for nearly three decades. Her peer reviewed research has informed understanding of early detection, the female profile and the importance of good mental health for autistic individuals. She has co-authored six highly regarded books on autism, five with Prof Tony Attwood. She regularly provides training to four Australian Universities.
